Report of Independent Auditors

Management and the Board of Trustees Marianas Public Land Trust

Report on the Financial Statements

We have audited the accompanying financial statements of the Marianas Public Land Trust (the Trust), a component unit of the Commonwealth of the Northern Mariana Islands, which collectively comprise the statements of net position as of September 30, 2016 and 2015, and the related statements of revenues, expenses and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Marianas Public Land Trust as of September 30, 2016 and 2015, and the changes in its financial position and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Schedule of Funding Progress and Actuarial Accrued Liability – Post Employment Benefits Other Than Pension that GASB requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the basis financial statements as a whole. The combining statement of net position, the combining statement of revenues, expenses and changes in net position, the combining statement of cash flows, the schedule of investments - general fund, the schedule of investments - park fund, and the schedule of administrative expenses compared to budget are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Supplementary Information, continued

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the combining statement of net position, the combining statement of revenues, expenses and changes in net position, the combining statement of cash flows, the schedule of investments general fund, the schedule of investments - park fund, and the schedule of administrative expenses compared to budget are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated June 8, 2017 on our consideration of the Marianas Public Land Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Marianas Public Land Trust's internal control over financial reporting and compliance.

MARIANAS PUBLIC LAND TRUST

COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

As management of the Marianas Public Land Trust (MPLT), we offer readers of MPLT's financial statements this narrative overview and analysis of the financial activities of MPLT for the year ended September 30, 2016. This Management's Discussion and Analysis should be read in conjunction with the audited financial statements.

Implementing Authority

The origins of MPLT are found in both the Constitution of the Commonwealth of the Northern Mariana Islands and Public Law (P.L.) 94-241, Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America. The Covenant contains key provisions, which are fundamental to MPLT's development. Article VIII, Section 802 requires that certain lands be made available to the United States Government by lease in order for it to carry out its defense responsibilities. These lands consist of 7,203 hectares on Tinian, 72 hectares at Tanapag Harbor in Saipan, and the entire island of Farallon de Medinilla.

Article XI, Section 6 of the Constitution as amended, provides for the establishment of MPLT upon the effective date of the Constitution. Some excerpts pertaining to the operating requirements of MPLT are:

- "... The number of trustees appointed by the Governor with the advice and consent of the Senate shall be ...[five]. Three shall be from Saipan, one from Rota and one from Tinian. At least one trustee shall be a woman and at least one trustee shall be of Carolinian descent. The trustees shall serve for a term of six years ... [shall] be staggered."
- "... The trustees shall make reasonable, careful and prudent investments."
- "... The trustees shall ...[use] the interest on the amount received for the lease of property at Tanapag Harbor for the development and maintenance of a memorial park. The trustees shall transfer to the general revenues of the Commonwealth the remaining interest accrued ...[except] that the trustees may retain the amount necessary to meet reasonable expenses of administration."
- "... The trustees shall make an annual written report to the people of the Commonwealth accounting for the revenues received and expenses incurred by the Trust and describing the investments and other transactions authorized by the trustees."
- "... The trustees shall be held to strict standards of fiduciary care.

Management's Discussion and Analysis, continued

Implementing Authority, continued

Article VIII, Section 803 of the Covenant describes the lease terms for the above properties. The Commonwealth will lease the property to the United States for 50 years with the United States having the option of renewing the lease for all or part of the property for an additional term of 50 years. The United States will pay the Commonwealth, in full settlement of the two 50 year lease terms, the total sum of \$19,520,600 determined as follows:

- Tinian Island property \$17.5 million;
- Saipan Island property located at Tanapag Harbor \$2 million;
- Farallon de Medinilla Island \$20,600.

The above sum will be adjusted by a percentage, which will be the same as the percentage change in the United States Department of Commerce composite price index from the date of signing the Covenant. Additional terms and conditions of this lease are found in the Technical Agreement Regarding Use of Land to Be Leased by the United States, which was executed simultaneously with the Covenant.

This was the initial source of the funding to MPLT from the Marianas Public Land Corporation (MPLC), i.e., \$23,942,602 allocated to the MPLT General Fund and \$2,000,000 allocated to the MPLT Park Fund, was received as follows:

Initial Distributions Received From MPLC

The total principal contributions received from the leasing of public land by MPLT from MPLC or its successor entities is \$39,796,788.

Financial Highlights

The following financial highlights are taken from the audited financial statements for the years ended September 30, 2016, 2015 and 2014.

• The assets of MPLT increased in 2016 by \$3,738,971 over the amount at 2015. This was due primarily to the principal contribution of \$800,334 and the increase of the fair market value of the investments.

The assets of MPLT increased in 2015 by \$3,056,205 over the amount at 2014. This was due primarily to the principal contribution of \$5,000,000, but this was offset by the declines in the fair market value of the investments.

The assets of MPLT increased in 2014 by \$3,710,975 over the amount at 2013. This was due to principal contributions of \$1,303,852 and the increase of the fair market value of the investments.

• Total liabilities for 2016 decreased by \$2,547,026 from 2015 due primarily to \$1,599,661 decrease of the amount due to the CNMI General Fund, and \$975,173 decrease in the amount due to brokers, which is a function of security purchases that did not clear by year end.

Financial Highlights, continued

• Total liabilities for 2015 increased by \$3,036,414 from 2014 due primarily to \$1,444,964 increase of the amount due to the CNMI General Fund, and \$1,612,713 increase in the amount due to brokers, which is a function of security purchases that did not clear by year end.

Total liabilities for 2014 decreased by \$1,117,955 from 2013 due primarily to a decrease in the amount due to brokers, which is a function of security purchases that did not clear by year end.

- The above changes resulted in an increase of \$6,285,997 in total net position for 2016, \$19,791 in total net position for 2015, and an increase of \$4,828,930 in total net position for 2014.
- Total revenues of MPLT are a combination of (1) gains (losses) attributable to the valuation of investments plus (2) income earned on such investments. Total operating revenues for 2016, 2015, and 2014 was \$7,914,402, \$(1,943,785), and \$5,382,094, respectively.
- The total performance of MPLT for 2016, 2015 and 2014 was 9.09%, (2.27%), and 6.9%, respectively.
- The overall administrative costs increased in 2016, 2015 and 2014 by \$11,245 or 1%, \$79,585 or 9% and \$76,642 or 10%, respectively.

MPLT General Fund Operations

The investment income for 2016, 2015, and 2014, was \$2,222,988, \$2,717,930, and \$1,627,366, respectively.

The distributions to the CNMI General Fund paid for 2016, 2015, and 2014 was \$1,331,248, \$1,862,401, and \$844,111, respectively. The cumulative amount distributed to the CNMI General Fund since inception in 1983 has been \$57,814,340. This has occurred while growing the principal fund by \$38,896,279 for the same time-period. The General Fund's annual return for 2016, 2015 and 2014 was 9.01%, (2.17%), and 6.82%, respectively.

The loan made to the Northern Marianas Housing Corporation (NMHC) became non-performing when NMHC defaulted in 2007 when P. L. 10-29 and 12-27 was repealed per P.L. 15-48. MPLT negotiated a settlement agreement wherein \$2,025,000 was paid and the related loan portfolio was transferred to MPLT. MPLT is currently managing these loans and attempting to recover its \$8.9 million original principal. Due to collection uncertainty for this investment, a write-down of value amounting to \$3,830,000 was recognized by MPLT as of September 30, 2016 (net current value of \$2,863,173).

Capital Assets

At September 30, 2016, 2015, and 2014, MPLT had \$323,752, \$292,844, and \$286,621, respectively, in capital assets, net of accumulated depreciation where applicable, including furniture, fixtures and equipment, vehicles and land, which represent a net increase in 2016 of \$30,908, 2015 of \$6,223, and a decrease in 2014 of \$36,193. See note 3 to the financial statements for more information on MPLT's capital assets.

Goals and Objectives

It is the intent of MPLT to continue to monitor its investment portfolio to ensure an adequate risk-adjusted rate of return is achieved. This is the phase of the Five-Step Investment Management Process, i.e., analyze, diversify, formalize, implement and monitor; that MPLT is currently performing. This involves periodic rebalancing of the portfolio to comply with its asset allocation investment policy. Occasionally, the Trustees may find it necessary or desirable to add additional asset classes, which require amendment of its Investment Policy Statement. It is MPLT's fiduciary duty to continue to follow the well-established prudent investment management practices.

Management's Discussion and Analysis, continued

MPLT Park Fund Operations

The MPLT Park Fund is part of the overall trust fund but is separately managed and accounted for due to its funding source and a different beneficiary as compared to the MPLT General Fund. The Park Fund's annual return for 2016, 2015 and 2014 was 9.74%, (3.12%) and 8.36%, respectively. The Park Fund has not suffered local investment losses as it only invests to benefit the American Memorial Park. As stated previously, the Park Fund received its principal funding from the lease proceeds of a portion of the Tinian, Tanapag Harbor, Farallon de Medinilla land lease revenues. The \$2,000,000 for the Tanapag Harbor in Saipan was dedicated to the formation of the American Memorial Park. The income on this principal contribution can only be used for the maintenance and development of the American Memorial Park (AMP). Accordingly, this initial principal contribution has been prudently managed since 1983 and has grown to \$8,996,333. This has been accomplished while distributing \$6,394,226 for AMP maintenance and development.

As part of a plan to make some of the principal available for development of the AMP, MPLT entered into a loan arrangement with the Commonwealth Development Authority on November 30, 2001 to lend them \$2,000,000 to be used with CIP funding grants in order to make the following additions and upgrades to the Park:

1.	American Memorial Park Visitor/Cultural Center	\$1,305,200
2.	American Memorial Park Marianas Memorial Garden	514,000
3.	Remodel and Upgrade Amphitheater	1,310,800
4.	Exhibit Design and Construction of Visitor Center	<u>870,000</u>
	Total	\$4,000,000

This loan is to be repaid from future income realized on the Park Fund investments. As income is received, the principal portion of the payment will be taken from the income stream and transferred to principal and re-invested. The term of the loan is fifteen years at an annual rate of 6.5%. The monthly principal and interest payment will be about \$17,400, subject to the amount investment income. It is through this mechanism that MPLT has been able to benefit the Park and sustain new development.

Goals and Objectives

It is the intention of the Trustees to continue to provide financial assistance to the American Memorial Park in accordance with the terms of the Constitution and Covenant. It has been through MPLT's stewardship of the Park Fund assets that the developments in the AMP have occurred. The Trustees plan to continue this past record of achievement and use it as a basis for further enhancements of the facility, which benefits the Commonwealth as a whole.

Economic Outlook

MPLT suffered in 2008 its largest loss of principal since 2002. This was due to the World-wide credit collapse and resulting recession. 2009 began a recovery of investment values and fortunately, due to our investment discipline, MPLT has recovered from the 2008 losses. 2016 has built on this recover and MPLT was able to add value to the portfolio. The outlook for 2017 appears strong as the markets have been setting new records, but interest rates are increasing, which will lower fixed-income values. The Trust has a long term time horizon. Accordingly, the Trust is continuously reviewing options to its current investment allocation in order to manage its risk-adjusted yields. The Trust may make changes to its asset allocation, but the basic investment approach will remain the same.

Contacting the MPLT's Financial Management

This report is designed to provide the branches of the Commonwealth Government and the public at large with a general overview of MPLT's finances and to show MPLT's accountability for the money it manages. The Management's Discussion and Analysis for the year ended September 30, 2016 is set forth in the report on the audit of MPLT's financial statements, which is dated June 8, 2017. The Discussion and Analysis explains the major factors impacting the 2016 financial statements. If you have questions about this report or the 2015 or 2014 reports or need additional financial information, contact the MPLT office, P.O. 1. Organization and Summary of Significant Accounting Policies

Organization

The Marianas Public Land Trust (MPLT), a component unit of the Commonwealth of the Northern Mariana Islands (CNMI), was formed on January 9, 1978, pursuant to the ratification and adoption of the Constitution of the CNMI, Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (the Covenant), and Technical Agreement Regarding Use of Land to be Leased by the United States in the Northern Mariana Islands.

MPLT did not become operational until May 17, 1983, when its Trustees were appointed by the Governor with confirmation by the Senate.

The purpose of MPLT is to manage all monies received by it from the CNMI Department of Public Lands (DPL) for the use of public lands. DPL has the responsibility to manage the public lands and distribute to MPLT all revenues net of reasonable administrative expenses.

MPLT's responsibility is to make reasonable, careful and prudent investments with respect to monies received from DPL. The Trustees have taken the position that their duty to the beneficiaries is not only to provide income to the general fund of the CNMI but also to preserve the principal of MPLT. As such, MPLT is currently allocating capital gains and losses on equity investments to principal fund balance. These capital gains and losses are not considered to be available for distribution to the general fund of the CNMI Government. Other forms of income on investments, after deduction of amounts necessary to meet reasonable administrative expenses, are distributed to the general fund of the CNMI Government.

MPLT is also responsible for carrying out the intention of Article VIII, Section 803(e) of the Covenant, by establishing a separate trust fund for the development and maintenance of an American Memorial Park. The Trustees allocate capital gains and losses on equity investments of this trust fund to the principal of the trust fund. Other forms of income on investments, after deduction of amounts necessary to meet reasonable administrative expenses, are to be used for the development and maintenance of the American Memorial Park.

Basis of Accounting

MPLT utilizes the flow of economic resources measurement focus. Its financial statements are prepared in accordance with accounting principles generally accepted in the United States as applied to governmental units using the accrual basis of accounting. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Net Position

Net position represents the residual interest in MPLT's assets after liabilities are deducted and consist of the following:

Net investment in capital assets

Capital assets, net of accumulated depreciation.

Restricted

Nonexpendable – Net position subject to externally imposed stipulations that require MPLT to maintain them permanently.

Expendable – Net position whose use by MPLT is subject to externally imposed stipulations that can be fulfilled by actions of MPLT pursuant to those stipulations or that expire with the passage of time.

All of MPLT's restricted net position at September 30, 2016 and 2015 are expendable.

Unrestricted

The unrestricted component of net position is the net amount of the assets and liabilities that are not included in the determination of net investment in capital assets or the restricted components of net position. MPLT does not have unrestricted net position at September 30, 2016 and 2015.

Cash and Cash Equivalents

For purposes of the statements of net position and cash flows, cash and cash equivalents includes all cash in banks and money market sweep deposits with initial maturities of ninety days or less.

At September 30, 2016 and 2015, cash and cash equivalents consisted of the following:

	<u>2016</u>	<u>2015</u>
Custodian money market sweep deposits Deposits with federally insured banks	\$1,728,042 708,235	\$1,413,533 107,830
Uninsured deposits	3,232 \$2,439,509	3,504 \$1,524,867
	Ψ <u>2,437,307</u>	$\Phi_{1,324,807}$

Notes to Financial Statements, continued

Cash and Cash Equivalents, continued

As of September 30, 2016 and 2015, custodian money market sweep deposits are held and administered by an investment manager subject to Securities Investor Protection Corporation (SIPC) insurance up to \$250,000 with coverage in excess of SIPC provided by a supplemental insurance policy through certain underwriters with a per client aggregate limit of \$1.9 million.

CNMI law does not require component unit funds to be collateralized and thus MPLT's funds are uncollateralized. Accordingly, the deposits are exposed to custodial credit risk.

MPLT maintains its cash and investments in bank accounts which exceed federal depository insurance limits. At September 30, 2016 and 2015, \$250,000 of MPLT's deposits in each bank is covered by federal depository insurance, with the remainder being uninsured and uncollateralized.

Investments

Investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale and are primarily determined based on quoted market values.

Foreclosed and Repossessed Assets

Foreclosed and repossessed assets are stated at lower of cost or fair value. Subsequent to foreclosure, valuations are periodically performed and the assets are carried at the lower of carrying amount or fair value less cost to sell.

Capital Assets

Capital assets are stated at cost. Depreciation is provided over the estimated useful lives of the assets through the use of the straight-line method and is charged to operations. Current policy is to capitalize items in excess of \$250.

Operating and Non-Operating Revenue and Expenses

Operating revenues and expenses include all direct and administrative revenues and expenses associated with the investments.

Non-operating revenues and expenses result from capital and non-capital financing activities.

Notes Receivable and Allowance for Loan Losses

Notes receivable are stated at the amount of unpaid principal, reduced by an allowance for loan losses. The allowance for loan losses is established through a provision for doubtful accounts charged as a reduction to revenues. Loans are charged against the allowance for loan losses when management believes that the collection of the principal is unlikely. The allowance is an amount that management believes will be adequate to absorb possible losses on existing loans that may be uncollectible, based on evaluations of the collectability of loans and prior loan loss experience. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans and current economic conditions that may affect the borrowers' ability to pay. Write-offs against the allowance are based on the specific identification method.

Management cannot currently determine the effects of the potential foreclosure of collateralized properties associated with the loans. Accordingly, the allowance for loan losses included in the accompanying financial statements excludes the value of the possible recovery of certain loans through foreclosure.

Interest income on loans is recorded based on collection while interest income on other notes receivable is accrued based on the unpaid principal balance.

Defined Contribution Plan (DC Plan)

On June 16, 2006, Public Law No. 15-13 was enacted which created the DC Plan, a multiemployer pension plan and is the single retirement program for all employees whose first time CNMI government employment commences on or after January 1, 2007. Each member of the DC Plan is required to contribute to the member's individual account an amount equal to 10% of member's compensation. MPLT is required to contribute to each member's individual account an amount equal to 4% of the member's compensation. MPLT's recorded DC contributions for the years ended September 30, 2016, 2015 and 2014 were \$4,523, \$4,675, and \$3,922, respectively, equal to the required contributions for each year.

Members of the DC Plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

GASB Statement No. 45 requires employers to record other postemployment benefits (OPEB) expense for their contractually required contributions to the OPEB plan. MPLT has complied with GASB 45 by recording OPEB expense based on the statutorial determined contribution rate of the Northern Mariana Islands Retirement Fund (the Fund). MPLT's OPEB liability is incorporated into the contribution amount. It is the understanding of the management of MPLT that the statutorial determined contribution rate of the Fund incorporated both the pension liability and the OPEB liability.

Defined Contribution Plan (DC Plan), continued

GASB 45 also requires detail disclosure of information related to the OPEB plan and MPLT management was unable to obtain this information from the Fund's financial report. MPLT management is unable to obtain the required disclosures and is of the opinion that such information must be obtained from the Fund. It is the position of the management of MPLT that the Fund is solely responsible for disclosure of OPEB information.

On August 30, 2012, Public Law 17-79 was enacted to amend Title I of the Commonwealth Code to include the intent of the CNMI to participate in the retirement insurance system established by Title II of the U.S. Federal Insurance Contributions Act (FICA) and for participation to be extended to elected officials, employees, political subdivisions and instrumentalities of the CNMI. On September 11, 2012, Public Law 17-82 CNMI Pension Reform Recovery Act of 2012 was enacted. Unless specifically exempted or authorized by federal law, Public Law 17-82 provides for mandatory membership of CNMI Government employees and elected officials in the U.S. Social Security system and authorizes employees, who elect to, to buy quarters of service in the U.S. Social Security system from contributions made to the Defined Benefit plan (DB Plan). In addition, Public Law 17-82 provides active and inactive DB Plan members the option to voluntarily terminate membership in the DB Plan, withdraw or roll over contributions to the DC Plan and to participate in the U.S. Social Security system without termination of employment or penalty. Further, Public Law 17-82 allows the CNMI Government to continue remitting its 4% employer contribution to the DC Plan unless the employee ceases to contribute its employee share. On March 11, 2013, Public Law 18-02 was enacted to amend Title 1, Division 8, Part 3 of Public Law 17-82 to clarify that the option to voluntarily terminate membership in the DB Plan, withdraw or roll over contributions to the DC Plan and to participate in the U.S. Social Security system without termination of employment or penalty is open to active or inactive DB Plan members who are not retired from the government.

Investments Measured at Fair Value

MPLT categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following tables set forth by fair value hierarchy level of MPLT's assets carried at fair value:

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for MPLT. As of September 30, 2016, MPLT's investment in U.S. agency obligations of FFCBFC and FNMA constituted 7% and 6%, respectively, of its total investments. As of September 30, 2015, MPLT's investment in U.S. agency obligations of the FNMA and FHLB constituted 8% and 5%, respectively, of its total investments.

The U.S. Treasury Securities are low risk investments as they are guaranteed by the full faith and credit of the U.S. government. While U.S. government – sponsored enterprises are not guaranteed, they are backed by the U.S. government and are recognized as low risk investments as well.

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, MPLT will not be able to recover the value of investments or collateral securities that are in the possession of an outside party.

Credit Quality Indicators

MPLT uses several credit quality indicators to manage credit risk in an on-going manner. MPLT's primary credit quality indicators are based on the results of aging analysis. A monthly general provision is calculated based on the portfolio aging (current, 1-30 days, 31-60 days, 61-90 days, 91-120 days and 121+days). A specific reserve is provided for the net realizable value of the loans identified as uncollectable.

Modifications

A modification of a loan constitutes a Troubled Debt Restructuring (TDR) when MPLT for economic or legal reasons related to a borrower's financial difficulties grants a concession to the borrower that it would not otherwise consider. MPLT offers various types of concessions when modifying a loan. Loans modified in a TDR involve reduction in regular monthly principal and interest payments and maturity term extensions to accommodate the borrower's financial needs for a period of time. As of September 30, 2016 and 2015 loans that had been modified in a TDR totaled \$309,540 which was all modified during the year ended September 30, 2013.
