- MUNICIPALITY (ARPA) - \$ 3,890,103

CHALLENGES & PRIORITIES...

2021 has been a challenging year for the Municipality of Rota under the leadership of Honorable Efraim M. Atalig. Due to onset of the worldwide Covid-19 pandemic coupled with the financial shortcomings in the CNMI's Budget has caused the Municipality to seek additional funding sources to finalize the numerous public building projects on the island. Since March of 2021, Mayor Atalig has reached out to Federal and State officials for assistance in funding infrastructure projects such as Public Restrooms, Baseball Fields, and finally addressing the renovation project for the Round-House Building that serves as the island biggest community center for public events. This year Mayor Atalig has met with CNMI Office of Public Assistance regarding FEMA Mangkhut projects on Rota. During the meeting, the Mayor of Rota raised concerns on the slow progress of projects that are still in the Architectural & Engineering (A&E) phase with the Pacific Engineering Group & Services (PEGS). It is the priority of Mayor Atalig to finalize all FEMA Mangkhut Disaster Recovery projects that has been long overdue.
